

SUCCESS IS A STATE OF MIND

by Beverly Nadler

**Success is a state of mind
That's all its ever been.
It's a special feeling inside of you
That knows you'll always win.
What you want only eludes you
When your mind focuses on lack.
To bring forth your heart's desire
Keep your mind on track.
You can create the life you want -
The Power is inside you.
You can turn it into reality -
Just let the Power guide you.
The success you seek will find you
When you're feeling joy and pleasure.
Good feelings are like magnets
That attract to you life's treasure.
You have a wonderful, magical tool -
It's called "creative imagination".
It will take you wherever you want to go,
As long as you CREATE your destination.
Yes, success is a state of mind...
And now that you truly know it,
Believe in yourself, do what you love
And soon your world will show it!**
